EDUCATION - NON-PROFIT - RELIGIOUS - GOVERNMENT

The ENR-G program extends Elites current 2-year warranty to 3-years for any purchases made by an Educational, Non-profit, Religious or Government/Military organization. This means that Elite's professional staff and company resources are available to handle the warranty needs of these valuable channels for up to 50% longer than our regular warranty plan.

Added sales incentives are also available as part of the ENR-G discount program for resellers, distributors and integrators. The ENR-G10 discount is calculated as 10% off for all qualifying customers as an incentive for additional purchases that occur in a window between 30-days and 36-months from the date of the original sale. The program has a dual purpose of granting our resellers an opportunity to increase their sales margins while offering a discount incentive to ENR-G customers at the same time.
