GolfSim® Electric Series

Motorized Retractable Impact Projection Screen

Product Description

The ***GolfSim® Electric*** Motorized Retractable Impact Screen is designed for premium performance with a space saving design for multi-purpose rooms. Engineered for players who want maximum versatility, image quality, and an effortless set up that does not occupy valuable floor space and being locked into a permanent structure. The GolfSim® Electric has Elite Screens' SWAPTEX™ technology, which allows the user to quickly replace the impact screen material should the need arise.

Product Design & Features

- ImpactWhite® 250 Golf Impact projection screen material with wide viewing angle
- ISF Certified for accurate color reproduction
- Material minimizes impact noise and ball bounce back
- Durable steel housing includes a pair of 12" L-brackets for easy installation
- Includes full enclosure with swiveling side panels
- SWAPTEX™ – design enables fast, swappable impact screen for hassle-free maintenance
- Retracts at the touch of a button, instantly clearing the room
