

# CineTension 3 WraithVeil® Dual

## Dual Front and Rear Electric Projection Screen

### Product Description

The **CineTension 3 WraithVeil® Dual** is a sturdy, well-made electric motorized projector screen that has front and rear-projection capabilities. Its tab-tensioned material provides uniform flatness for exceptional projected image clarity. The WraithVeil® Dual material presents a bright, clear image on both sides when projected upon from either angle. This versatile fabric gives optimal results under controlled room lighting.

### Product Design & Features

- Dual material provides flexibility to project from the front or back of the material
- Tab-tension design helps maintain a flat and taut projection surface that is ripple-free
- Aluminum black housing is durable and moisture resistant
- Floating brackets included to accommodate wall or ceiling installation
- Plug & Play design with built-in low voltage control system
