

GolfSim Portable ImpactWhite® 350

Golf Impact Projection Screen with Frame Enclosure

Compatible with Short Throw Projectors Only

Product Description

The **GolfSim Portable ImpactWhite® 350** is a complete golf enclosure screen with a folding-frame design. The aluminum light-weight construction is perfect for mobile on-the-go Golf and Multi-sport simulator applications. The ImpactWhite® 350 is an impact front projection material designed to withstand golf ball impact. It has a tight weave that enables the projection surface to be smooth and provide high-resolution projection images.
