

The **DIY Wall 2 Series** is a portable rollout screen for convenient Do-It-Yourself installations on walls, garage doors, patios, etc. The **DIY Wall 2** includes black masking borders on all sides and two wall hooks on both top and bottom horizontal support bars. The wall hooks provides a simple hanging solution and a quick setup to enjoy a movie presentation.

Screen Material

- MaxWhite® B 1.0 gain matte white material
- Wide diffusion uniformity, 180° viewing angle
- Black borders absorb projector over scan while enhancing visual contrast
- 4K Ultra HD and Active 3D Ready
- Not compatible with Ultra/Short-throw Projectors

Design and Installation

- Rollout wall hanging front projection screen
- Built-in wall hooks for easy installation, includes screws
- Removable top/bottom support bars – prolong storage needs
- Snap-button design assures a flat projection surface
- GREENGUARD® and GREENGUARD® Gold Certified | UL 2818

Snap buttons on edge of material

Removable top/bottom support bars
