

The **Starling Tab-Tension Series** features an enhanced aluminum casing with floating installation brackets for added versatility in an installation. Its stylish arcuate profile readily enhances the flow of interior décor. It uses Elite's 1.1 gain **Spectra White FG** material with a quiet and power saving synchronous motor. The Starling electric projection screen ships fully assembled with integrated control buttons on the endcap in addition to a complete set of Infrared and Radio Frequency Remotes, a 12-volt trigger and RS232 port.

### Screen Material

- Spectra White FG (fiberglass backed) matte white surface
- 1.1 Gain with 180° viewing angle
- 4K Ultra HD, Active 3D, and HDR Ready
- Standard black masking borders and black backing
- Extra top black masking border for high ceiling installation
- Not compatible with Ultra/Short-throw Projectors
- Available in the following diagonal sizes:
  - 100", 120" and 135" in 16:9 format

### Design and Installation

- Elegant arcuate shaped case in white or black finish
- Floating brackets allow easy alignment for a wall or ceiling installation
- Mounting hardware kit included
- Wall mountable remote control cradle included
- Plug & Play ready, no hardwire installation required
- RS-232 capable for serial communication

### Control System

- Internal Radio Frequency/Infrared receivers with IR, RF remotes included
- Infrared IR "eye" extension sensor - ideal for concealed installation but still require Infrared control
- 12 volt trigger capable for synchronized screen operation with the projector's power cycle
- Manual control UP/DOWN buttons on exterior of case
- RS-232 capable for serial communication

### Quality and Reliability

- Smooth and silent operation synchronous motor with extended operational longevity
- Low power consumption
- Flame Retardant: Complies with NFPA 701 Standards
- 2-year warranty from defects in workmanship
- 3rd year warranty offered through ENR-G program (Education, Non-Profit, Religious, and Government/Military)
