Dry Contact (Direct Control)

Follow the steps below to achieve a direct control connection between the projection screen and a direct control device.

Step 1: Remove the Left End Cap (as you face the front of the screen)
Step 2: Wire 3PIN-Yellow and 2PIN-Black together
Step 3: Connect 2PIN-White to 110V
Step 4: Connect 3PIN-Orange wire to Up Control
Step 5: Connect 3PIN-Purple wire to Down Control
