

DESCRIPTION

The **AcousticPro UHD** (ultra-high definition) is a moiré-free self-supported acoustically transparent front projection screen material. The dense synthetic perforated weave is compatible with Ultra-High Definition/4K resolutions while mitigating light penetration for a brighter picture. The AcousticPro UHD design maximizes sound penetration with minimal attenuation without compromising picture quality.

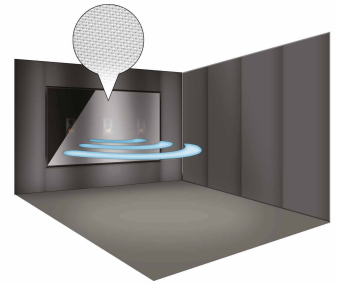

Shown here on Aeon AUHD

MATERIAL SPECIFICATIONS

- Ultra-wide viewing angle allows viewers to see a clear bright picture from any position
- Moiré-free perforated weave acoustically transparent material
- Wide diffusion uniformity – maintains luminance levels throughout entire surface
- Mildew Resistant
- 4K UHD, Active 3D, and HDR ready
- ISF Certified for accurate color reproduction
- Flame Retardant: Complies with NFPA 701 Standards
- Compatible with standard throw projectors ONLY

Color: White

Material Hole Size: 0.32 mm (avg)

Viewing Angle: 180°

Gain: 1.0

Projection Type: Front

Mean Attenuation: -2.36 dB

GAIN CHART

On axis 0° Gain: 1.0
Viewing Cone: 180°
