Elite Screens Inc. is a US based company with its world headquarters in California and satellite offices in Maryland, Germany, Taiwan, China, Japan, India, and Australia. Elite Screens specializes in producing retail, commercial and home-theater projection screens for the specific needs of these three sales channels. As a leading American screen company, Elite delivers its promise of award winning quality through cost effective products for today's discerning video enthusiasts. We produce a variety of front, rear, ALR, and acoustically transparent projection screen materials for virtually any projection environment.

## ENR-G

EDUCATION - NONPROFIT - RELIGIOUS - GOVERNMENT

The ENR-G program extends Elite's current 2-year warranty to 3-years for any purchases made by an Educational, Non-profit, Religious or Government/Military organization. This means that Elite's professional staff and company resources are available to handle the warranty needs of these valuable channels for up to 50% longer than our regular warranty plan.

**Manual B Series**

The Manual B Series is an ultra affordable, high performance, manual pull-down projection screen for use in the home or business. Its integrated mounting solutions allow it to be installed on the wall or ceiling suspended.

**Manual Series**

The Elite Manual Pull-down series front projection screen is a cost effective retractable screen with a dual case design for wall or ceiling installations.

**Manual Tab-Tension 2 Series**

The Manual Tab-Tension 2 is a first-class manual pull-down projection screen with added features typically only found on high-end products. It has a tab-tension system to keep the screen material flat and taut for a ripple-free projection image.

**Manual Tab-Tension 3 Series**

A manual pull-down projection screen with a tab-tension system to keep the screen material flat and taut uniformly. It is offered in a front projection surface for light-controlled environments that is compatible with ultra/short/standard-throw projectors.

**CineTension 3/ CineTension 3 WraithVeil® Dual Series**

A sturdy, well-made electric motorized projector screen with a tab-tensioned design that provides uniform flatness for exceptional projected image clarity. Available in CineWhite® and WraithVeil® Dual materials.

**Spectrum/ Spectrum AUHD**

The Spectrum Series is the best option for a budget Electric/Motorized front projection screen. It is versatile and fits perfectly in either residential or commercial wall/ceiling applications. Matte white and acoustic transparent materials available.

**Starling Tab-Tension CLR®**

Ceiling Light Rejecting front projection screen for ultra-short throw projectors. The StarBright CLR® material absorbs overhead light to provide contrast-rich images that won't wash out.

**Starling Tab-Tension CLR® 3**

An electric retractable front projection screen with Ceiling Light Rejection® technology for Ultra-Short throw projectors. Its tab-tension design assures a flat and taut projection surface that produces exceptional images that are ripple-free.

**VMAX Tab-Tension 3 Series**

Electric/motorized projection screen with CineWhite® ISF matte white flexible material. It has a tab-tension design to pull and stretch the surface on all sides to achieve a flat and taut projection surface suitable for ultra, short, and standard throw projectors.

**Starling Tab-Tension 2 CineGrey 4D Series**

A high-quality electric tab-tensioned motorized screen. It utilizes our CineGrey 4D material, which is a ceiling ambient light rejecting front projection surface.

**Starling Tab-Tension 2 CineGrey 5D® Series**

An electric motorized retractable projector screen that uses an Ambient Light Rejecting material. Material enhances picture quality in environments with little control over room lighting.

**Saker Tab-Tension AUHD**

An acoustically transparent Ultra HD electric/motorized tab-tensioned projection screen. The AcousticPro UHD material is designed to complement in-wall speakers while allowing sound to pass through the material with minimal attenuation.

**VMAX 3 Series**

An enhanced electric motorized projector screen for commercial and home theater applications with a full control system. Utilizes Elite Screens' GREENGUARD® Certified MaxWhite® Fiberglass front projection material.

**Kestrel Tab-Tension 3 Series**

An electric floor-rising projection screen that is an attractive centerpiece for home theater or high-level conference rooms. Its tab-tension design maintains a flat and taut front projection surface to provide a ripple-free image suitable for UST projectors.

**Kestrel Tab-Tension 3 CineGrey 4D Series**

A floor-rising electric projection screen with ambient light rejecting technology. The CineGrey 4D is an angular reflective material that incorporates a high-contrast diffusion layer to provide contrast-rich images.

**Kestrel Tab-Tension 2 CLR® Series**

An electric floor-rising projector screen with Ceiling Light Rejecting® technology to combat the washout effect from overhead lighting in bright room environments. Specifically designed for UST projectors.

**Kestrel Tab-Tension 2 CLR® 3 Series**

An electric free-standing projector screen with Ceiling Light Rejecting® technology to combat the washout effect from overhead lighting in bright room environments. Absorbs up to 90% of overhead light.

Electric Screens - Floor Rising

Electric Screens - Wall/Ceiling

**Starling Tab-Tension CineGrey 4D AT Series**

An electric tab-tensioned motorized screen that is draped with an acoustically transparent ambient light rejecting front projection surface. The material allows for speaker placement behind the screen.

**Spectrum 2 Series**

This Electric Projection Screen features a streamlined aluminum casing in a white enamel coating with floating wall/ceiling brackets. It uses the GREENGUARD® Certified MaxWhite® FG screen material that enhances the picture quality with a wide viewing angle.

### Yard Master 2 Series

Yard Master 2 is a folding-frame outdoor projection screen. Its light-weight aluminum frame allows it to be set up in minutes by simply unfolding the frame; attaching the legs and material. It is the perfect companion for outdoor presentations.

### Yard Master Plus Series

The Yard Master Plus is an enhanced version of Elite's portable indoor/outdoor folding-frame screen that comes with variable height settings to accommodate larger venues.

### Yard Master Manual Tension Series

An outdoor manual pull-down screen that is IP65 rated for water protection for outdoor applications. The tab-tension design supports a front projection surface with perfect uniform flatness.

### Yard Master Electric Tension

An outdoor electric tab-tension screen that is IP33 rated for water protection for outdoor applications. The screen comes with a Radio Frequency remote control that doubles as a wireless 12-volt projector trigger. Available in front and dual/rear projection materials.

### Yard Master Lite Series

The Yard Master Lite is a lightweight outdoor portable projection screen. Its aluminum tube frame construction allows the screen to be assembled quickly by joining the tube frames together for on-the-go presentations or movies in the backyard.

### Yard Master Electric

Elite Screens' outdoor projector screen for patios and other outdoor spaces that is easily controlled with the included RF remote. Watch a movie in the convenience of your own backyard, patio, pool deck, or wherever your creative innovation leads.

### Yard Master Wireless Series

A battery-operated outdoor projection screen which eliminates the need for a power cable. The screen is lowered and raised using a Radio Frequency remote control and is IPX3 rated for water protection in outdoor spaces.

### Yard Master Tab-Tension Wireless Series

A battery-operated tab-tension screen that is IPX3 rated for water protection for outdoor applications. Uses the CineWhite® front projection material that is ISF certified for accurate color reproduction.

### Yard Master 2 WraithVeil® Dual Series

A fast folding-frame outdoor or indoor projection screen. It includes a front and rear projection material in one. This eliminates the need to swap out materials and conveniently accommodates both projection set ups.

## Portable Screens

### QuickStand 5-Second Tension CineGrey 5D® Series

A Large mobile free-standing projection screen with a tab-tension system and ceiling ambient light rejecting technology. The screen includes a built-in stage case for travel.

### ezCinema Tab-Tension

The ezCinema Tab-Tension is a free-standing portable projection screen that is offered now with a tab-tension system and "scissor-back" mechanism. This is the perfect "projector screen in a box" for portable presentations on the go.

### ezCinema 2 Series

The ezCinema 2 is a free-standing portable projection screen that offers more features than our earlier model. It swiftly pulls up and retracts using a "scissor-backed" free-standing mechanism that requires no extra tools.

### Tripod B Series

The Tripod B Series is a light-weight portable projection screen of the traditional tripod design. It's a dependable design that is easy to carry for portable small or large venue presentations.

### Tripod Series

This proven and reliable tripod portable projection screen combines precision with the elegance of a traditional design. Its rugged construction will withstand the rigors of daily use while its adjustable locking ring provides ease in its adjustable height settings.

### Tripod Tab-Tension CineGrey 5D® Series

A tab-tension reinforced "roll-up" projection screen capable of rejecting the washout effects of bright room lighting. Perfect for quick setups and on-the-go applications.

### ezCinema Tab-Tension CineGrey 4D Series

A portable ceiling ambient light rejecting pull-up projector screen featuring a detachable telescoping support bar which allows it to be stopped at any position to accommodate various height requirements.

### Light-On StarBright™ CLR® 16 Series

A high-gain portable projection screen with a folding-frame design. Ideal for indoor presentations for bright room environments with overhead light. Includes a black skirt drape to add a professional finish.

### Light-On CLR® 2 Series

A portable projection screen with a folding-frame design for indoor presentations under bright room environments. Uses our innovative StarBright™ CLR® 2 material which is specially crafted for bottom mounted ultra-short and short-throw projectors.

## DIY Screens

### Designer Cut Series

Designer Cut Series is Elite's selection of pre-cut projection screen material swatches. The swatches are prepared for use in custom solutions and other improvised installations according to the integrator's needs.

**Aeon Series**

Aeon Series is a fixed frame projection screen that uses Elite's EDGE FREE® technology. The EDGE FREE® design resembles a giant size flat panel TV display.

**Aeon CLR®**

An EDGE FREE® fixed frame screen that uses Elite's innovative StarBright CLR® (Ceiling Light Rejecting®) material. Its angular serriform microstructures negate the washout effects of ambient light, especially from overhead sources.

**Aeon CineGrey 5D® Series**

A ceiling ambient light rejecting fixed frame screen with an EDGE FREE® design. The CineGrey 5D® front projection material is the perfect solution for rooms that have little or no control over incidental light.

**Aeon AUHD**

The Aeon AcousticPro UHD is an acoustically transparent (AT) Ultra-Hi Def fixed frame projection screen. The AcousticPro UHD material is designed to complement in-wall speakers while allowing sound to pass through the material with minimal attenuation.

**Aeon CLR® 3 Series**

An EDGE FREE® fixed frame screen that utilizes our CLR® 3 (Ceiling Light Rejecting®) material. The material absorbs 90% of overhead light and Improves color saturation and black levels under ambient light conditions.

**Sable Frame 2/ Sable Frame CineGrey 3D® Series**

The Sable Frame series is a fixed frame screen with a 2.4 inch velveteen coated frame available in our ISF Certified CineGrey 3D® and CineWhite® UHD-B screen materials.

**Aeon CineWhite® A8K Series**

The Aeon CineWhite® A8K is an EDGE FREE fixed frame screen with an ultra-fine acoustically transparent front projection material for high-resolution projectors. It is ISF Certified for accurate color reproduction in dark room environments.

**Aeon CineGrey 4D® AT**

An acoustically transparent EDGE FREE® fixed frame screen with ambient light rejecting technology. It is perforated to allow speaker placement behind the screen to allow sound to breathe through.

**Aeon StarBright™ CLR® 16**

A ceiling light rejecting fixed frame screen with a high gain front projection surface. It increases projector brightness while absorbing overhead light to produce vivid, colorful, contrast-rich images in ambient light room environments.

**Aeon CLR® 2 Series**

The Aeon CLR® 2 is an EDGE FREE® ceiling and ambient light rejecting projection screen. It specializes in negating the washout effect caused by overhead and other off-axis light sources. The CLR 2 features a durable scratch-resistant coating that is easy to clean.

Sports Simulation Screens

**GolfSim DIY Screen Series**

A golf impact front projection material for golf simulator enclosures. It is a Do-it-Yourself (DIY) design that includes metal grommets all around the entire material to ensure the material is equally tensioned on all sides.

**GolfSim Portable ImpactWhite® 350 Series**

A complete golf enclosure screen with a folding-frame design. The aluminum light weight construction is perfect for mobile on-the-go Golf /Multi-sport simulator applications.

**GolfSim Bay Series**

A premiere golf simulator enclosure designed for high-end commercial and professional golf simulator installations. It includes everything you need to build the enclosure out of the box eliminating the hassle of purchasing additional components.

**Evanesce Tab-Tension B CineGrey 5D®**

An in-ceiling electric projection screen designed for integrated ceiling installations. It utilizes our CineGrey 5D® ambient light rejecting material for superb performance with the lights on or off.

**Evanesce Tab-Tension B Series**

An elegant finished in-ceiling projection screen. It has a slim casing for easy installation from above or below a ceiling. The tab-tensioned system maintains flatness uniformity with no tab impressions.

**Evanesce / Evanesce AcousticPro UHD Series**

A fully contained in-ceiling electric projection screen. It is encased in a white-enameled aluminum housing for convenient installation. Available in matte white and acoustic transparent screen materials.

**Evanesce B Series**

The Evanesce B is a versatile in-ceiling projection screen that conveniently disappears from view when not in use. It can be installed from within the above-ceiling airspace or from below thanks to its removable base panels that were originally designed for the European market.

**SWIFT-RC1™ Control System**

**Programmable Custom Drop Setting  
Radio Frequency Channel Programming  
Wired and Wireless 12 Volt Trigger Capability**
