About Elite Screens

Elite Screens Inc. is a US based company with its world headquarters in California and satellite offices in Germany, Taiwan, China, Japan, India, and Australia. Elite Screens specializes in producing retail, commercial and home-theater projection screens for the specific needs of these three sales channels. As a leading American screen company, Elite Screens delivers its promise of award winning quality through cost effective products for today's discerning video enthusiasts. We produce a variety of front, rear, ALR, and acoustically transparent projection screen materials for virtually any projection environment.

ENR-G
EDUCATION - NONPROFIT - RELIGIOUS - GOVERNMENT

The ENR-G program extends Elite's current 2-year warranty to 3-years for any purchases made by an Educational, Non-profit, Religious or Government/Military organization. This means that Elite's professional staff and company resources are available to handle the warranty needs of these valuable channels for up to 50% longer than our regular warranty plan.

Manual Screens

Manual B Series

The Manual B Series is an ultra affordable, high performance, manual pull-down projection screen for use in the home or business. Its integrated mounting solutions allow it to be installed on the wall or ceiling suspended.

Manual Series

The Elite Manual Pull-down series front projection screen is a cost effective retractable screen with a dual case design for wall or ceiling installations.

Manual Tab-Tension 2 Series

The Manual Tab-Tension 2 is a first-class manual pull-down projection screen with added features typically only found on high-end products. It has a tab-tension system to keep the screen material flat and taut for a ripple-free projection image.

Manual Tab-Tension 3/ CineGrey 4D Series

A manual pull-down projection screen with a tab-tension system to keep the screen material flat and taut uniformly. Available in matte white and grey screen materials to accommodate both light-controlled rooms and environments with ambient light.

Electric Screens - Wall/Ceiling

Starling Tab-Tension CineGrey 4D AT Series

An electric tab-tensioned motorized screen that is draped with an acoustically transparent ambient light rejecting front projection surface. The material allows for speaker placement behind the screen.

Starling 3 Series

A motorized projection screen engineered for performance, longevity, and visual appeal. It features our MaxWhite® and MaxWhite® Fiberglass (FG) materials, offering a wide viewing angle for consistent image clarity across the room.

Electric Screens - Wall/Ceiling

CineTension 3/ CineTension 3 WraithVeil® Dual Series

A sturdy, well-made electric motorized projector screen with a tab-tensioned design that provides uniform flatness for exceptional projected image clarity. Available in CineWhite® and WraithVeil® Dual materials.

Spectrum/ Spectrum AUHD

The Spectrum Series is the best option for a budget Electric/Motorized front projection screen. It is versatile and fits perfectly in either residential or commercial wall/ceiling applications. Matte white and acoustic transparent materials available.

Starling Tab-Tension 3

The Starling Tab-Tension 3 delivers premium performance with a sleek, reliable, motorized design. Its tab-tensioned ISF-Certified CineWhite® screen ensures exceptional flatness for stunning clarity across a wide viewing angle

Starling Tab-Tension CLR® 5

A sleek motorized projection screen that features an ultra-short throw projection Ceiling Light Rejecting® surface. Absorbs up to 80% of overhead light and includes the SWIFT-RC1 Control System for easy operation.

VMAX Tab-Tension 3 Series

Electric/motorized projection screen with CineWhite® ISF matte white flexible material. It has a tab-tension design to pull and stretch the surface on all sides to achieve a flat and taut projection surface suitable for ultra, short, and standard throw projectors.

Starling Tab-Tension 2 CineGrey 4D Series

A high-quality electric tab-tensioned motorized screen. It utilizes our CineGrey 4D material, which is a ceiling ambient light rejecting front projection surface.

Starling Tab-Tension 2 CineGrey 5D® Series

An electric motorized retractable projector screen that uses an Ambient Light Rejecting material. Material enhances picture quality in environments with little control over room lighting.

Saker Tab-Tension AUHD

An acoustically transparent Ultra HD electric/motorized tab-tensioned projection screen. The AcousticPro UHD material is designed to complement in-wall speakers while allowing sound to pass through the material with minimal attenuation.

VMAX 3 Series

An enhanced electric motorized projector screen for commercial and home theater applications with a full control system. Utilizes Elite Screens' GREENGUARD® Certified MaxWhite® Fiberglass front projection material.

Electric Screens - Floor Rising

Kestrel Tab-Tension 3 Series

An electric floor-rising projection screen that is an attractive centerpiece for home theater or high-level conference rooms. Its tab-tension design maintains a flat and taut front projection surface to provide a ripple-free image suitable for UST projectors.

Kestrel Tab-Tension 3 CineGrey 4D Series

A floor-rising electric projection screen with ambient light rejecting technology. The CineGrey 4D is an angular reflective material that incorporates a high-contrast diffusion layer to provide contrast-rich images.

Kestrel Tab-Tension 2 CLR® Series

An electric floor-rising projector screen with Ceiling Light Rejecting® technology to combat the washout effect from overhead lighting in bright room environments. Specifically designed for UST projectors.

Kestrel Tab-Tension CLR® 5 Series

An electric free-standing projector screen with Ceiling Light Rejecting® technology to combat the washout effect from overhead light sources in bright room environments. Absorbs up to 80% of overhead light.

Outdoor Screens

Yard Master 2 Series

Yard Master 2 is a folding-frame outdoor projection screen. Its light-weight aluminum frame allows it to be set up in minutes by simply unfolding the frame; attaching the legs and material. It is the perfect companion for outdoor presentations.

Yard Master Plus Series

The Yard Master Plus is an enhanced version of Elite's portable indoor/outdoor folding-frame screen that comes with variable height settings to accommodate larger venues.

Yard Master Manual Tension/ WraithVeil® Dual Series

An outdoor manual, tab-tension pull-down screen that is IP65 rated for water protection for outdoor applications. Available in a matte white material or Dual front/rear projection surface.

Yard Master Electric Tension Dual Series

An electric screen with 2-way projection material that is IP33 rated for wind/rain penetration for outdoor applications. Its tab-tension design supports the projection surface with perfect uniform flatness.

Yard Master Lite Series

The Yard Master Lite is a lightweight outdoor portable projection screen. Its aluminum tube frame construction allows the screen to be assembled quickly by joining the tube frames together for on-the-go presentations or movies in the backyard.

Yard Master Electric

Elite Screens' outdoor projector screen for patios and other outdoor spaces that is easily controlled with the included RF remote. Watch a movie in the convenience of your own backyard, patio, pool deck, or wherever your creative innovation leads.

Yard Master Manual Series

A non-electric outdoor projection screen that is IP65 certified for rain/water protection. Its retractable design is ideal for wall and patio installations as it brings media room quality in addition to functionality to your outdoor spaces.

Yard Master Tab-Tension 2 Wireless Series

A battery-operated outdoor projection screen that is IP33 rated for dust and water protection against outdoor elements. The tab-tension design provides uniform tension on all sides for a flat projection surface.

Yard Master 2 WraithVeil® Dual Series

A fast folding-frame outdoor or indoor projection screen. It includes a front and rear projection material in one. This eliminates the need to swap out materials and conveniently accommodates both projection set ups.

Portable Screens

QuickStand 5-Second Tension Series

A Large mobile free-standing projection screen with a tab-tension system. The screen includes a built-in stage case for travel on-the-go presentations. Available in a matte white or ambient light rejecting materials.

Light-On CLR® 5 Series

Portable Ceiling Light Rejecting projection screen engineered to perform and provide the best picture quality in bright indoor environments. Its folding-frame design sets up quickly and delivers a stable, professional display surface for on-the-go presentations.

ezCinema 2 Series

The ezCinema 2 is a free-standing portable projection screen that offers more features than our earlier model. It swiftly pulls up and retracts using a "scissor-backed" free-stand-ing mechanism that requires no extra tools.

ezCinema X-Ratio/ Tab-Tension X-Ratio Series

An ultra-portable floor pull-up projector screen designed for flexibility and precision with multi-aspect ratio support and tab-tensioning for a flawless viewing surface.

Portable Screens

Tripod Series

This proven and reliable tripod portable projection screen combines precision with the elegance of a traditional design. Its rugged construction will withstand the rigors of daily use while its adjustable locking ring provides ease in its adjustable height settings.

ezCinema Tab-Tension CLR® 5 Series

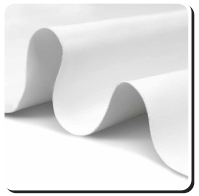

A free-standing portable ultra-short throw projector screen. It effortlessly pulls up from its housing to reveal the StarBright CLR® 5 front projection surface with Ceiling Light Rejecting® technology.

ezCinema Tab-Tension CineGrey 4D Series

A portable ceiling ambient light rejecting pull-up projector screen featuring a detachable telescoping support bar which allows it to be stopped at any position to accommodate various height requirements.

DIY Screens

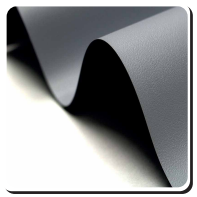

Designer Cut ImpactWhite®

A selection of pre-cut ImpactWhite® projection screen material swatches. The swatches are prepared for use in custom solutions and other improvised installations according to the integrator's needs.

DIY Pro Series

The DIY Pro Screen series features black masking border with reinforced metal grommets that run all edges, enabling simple do-it-yourself installations.

Designer Cut Series

Designer Cut Series is Elite's selection of pre-cut projection screen material swatches. The swatches are prepared for use in custom solutions and other improvised installations according to the integrator's needs.

Fixed Frame Screens

Aeon Series
Aeon Series is a fixed frame projection screen that uses Elite's EDGE FREE® technology. The EDGE FREE® design resembles a giant size flat panel TV display.

Aeon CLR®
An EDGE FREE® fixed frame screen that uses Elite's innovative StarBright CLR® (Ceiling Light Rejecting®) material. Its angular serriform microstructures negate the washout effects of ambient light, especially from overhead sources.

Aeon CineWhite® A4K Series
An EDGE FREE® fixed frame screen with an ultra-fine acoustically transparent front projection material for high-resolution projectors. The CineWhite® A4K produces exceptional performance in dark room dedicated home theater environments.

Aeon AUHD
The Aeon AcousticPro UHD is an acoustically transparent (AT) Ultra-Hi Def fixed frame projection screen. The AcousticPro UHD material is designed to complement in-wall speakers while allowing sound to pass through the material with minimal attenuation.

Aeon CLR® 3 Series
An EDGE FREE® fixed frame screen that utilizes our CLR® 3 (Ceiling Light Rejecting®) material. The material absorbs 90% of overhead light and Improves color saturation and black levels under ambient light conditions.

Sable Frame 2 Series
The Sable Frame 2 series is a fixed frame projection screen with a 2.4 inch velveteen coated frame available in our ISF Certified CineWhite® UHD-B screen material for dark room environments.

Aeon CineWhite® A8K Series
The Aeon CineWhite® A8K is an EDGE FREE fixed frame screen with an ultra-fine acoustically transparent front projection material for high-resolution projectors. It is ISF Certified for accurate color reproduction in dark room environments.

Aeon CineGrey 4D® AT
An acoustically transparent EDGE FREE® fixed frame screen with ambient light rejecting technology. It is perforated to allow speaker placement behind the screen to allow sound to breathe through.

Aeon CineGrey 4D Series
An EDGE FREE fixed-frame projector screen engineered with ceiling ambient-light-rejecting technology to preserve image contrast in moderately lit rooms. Its CineGrey 4D angular-reflective surface deflects overhead and off-axis light.

Aeon CLR® 5 Series
An EDGE FREE CLR® (ceiling light rejecting) fixed frame projector screen that uses our ultra-short throw StarBright® CLR® 5 front projection surface which absorbs up to 80% of overhead light.

Sable Frame CineGrey 4D Series
A premium fixed-frame screen finished with a rich velvet border that utilizes an angular-reflective front projection material engineered to reject ambient light from all directions while preserving exceptional image quality.

Sports Simulation Screens

GolfSim Portable Series
A complete golf enclosure screen with a folding-frame design. The aluminum light weight construction is perfect for mobile on-the-go Golf /Multi-sport simulator applications. Now available in the 350, A4K, and 1145 ImpactWhite® materials.

GolfSim Bay Series
A premiere golf simulator enclosure designed for high-end commercial and professional golf simulator installations. It includes everything you need to build the enclosure out of the box eliminating the hassle of purchasing additional components.

Sports Simulation Screens

GolfSim DIY Screen Series
A golf impact front projection material for golf simulator enclosures. It is a Do-it-Yourself (DIY) design that includes metal grommets all around the entire material to ensure the material is equally tensioned on all sides.

GolfSim Electric Series
A Motorized Retractable Impact Screen, designed for premium performance with a space saving design for multi-purpose rooms. It has Elite's SWAPTEX™ technology, which allows the user to quickly replace the impact screen material should the need arise.

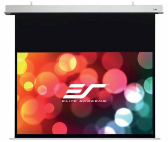

Electric - Recessed / In-Ceiling

Evanesce Tab-Tension B CineGrey 5D®
An in-ceiling electric projection screen designed for integrated ceiling installations. It utilizes our CineGrey 5D® ambient light rejecting material for superb performance with the lights on or off.

Evanesce Tab-Tension B Series
An elegant finished in-ceiling projection screen. It has a slim casing for easy installation from above or below a ceiling. The tab-tensioned system maintains flatness uniformity with no tab impressions.

Evanesce / Evanesce AcousticPro UHD Series
A fully contained in-ceiling electric projection screen. It is encased in a white-enameled aluminum housing for convenient installation. Available in matte white and acoustic transparent screen materials.

Evanesce B Series
The Evanesce B is a versatile in-ceiling projection screen that conveniently disappears from view when not in use. It can be installed from within the above-ceiling airspace or from below thanks to its removable base panels that were originally designed for the European market.
