

DESCRIPTION

The **ImpactWhite® A4K** is a single layer ultra-fine projection surface designed to provide high-fidelity projection images while at the same time serving as a golf impact screen. It's capable of withstanding golf ball impact for Golf or Multi-Sport simulation applications.

Shown here on Designer Cut Series

MATERIAL SPECIFICATIONS

- ImpactWhite® A4K golf impact front projection material
- 0.9 gain with a 170° wide viewing angle allows viewers to see a clear bright uniform picture from any angle
- Resists golf impact and withstands ball speeds up to 200 mph.
- Tightly knitted polyester material preserves image fidelity for clear and sharp presentations

Color: White

Thickness: 0.016" (0.41 mm)

Number of Layers: 1

Material Composition: 100% Polyester

Operating Temp: 68°–104° F (20°–40° C)

Weight: 0.37 lb. (171.5 g) /m2

MD Tension Strength: 12 kgf

Effective Width: 104.3" (2650 mm)

Gain: 0.9

CD Tension Strength: 10 kgf

Viewing Angle: 170°

Projection Method: Front

Withstands golf speeds up to: 200 mph

Impact rebound Distance: 6.5 ft

GAIN CHART

On axis 0° Gain: 0.9

Viewing Cone: 170°
