

Kestrel Tab-Tension 2 CLR®

ALR/CLR® Motorized Floor-rising Projection Screen

Product Description

The **Kestrel Tab-Tension 2 CLR®** is an electric floor-rising projector screen with Ceiling Light Rejecting® technology to combat the washout effect from overhead lighting in bright room environments. The StarBright CLR® material is configured in a tab-tensioned format to ensure a taut, flat, and ripple-free projection surface suitable for ultra-short throw projectors. It is the ideal non-invasive solution for environments where wall or ceiling installations are impractical.

Product Design & Features

- Ceiling Light Rejecting material absorbs up to 90% of overhead lighting
- 100x contrast enhancement over standard matte white screens
- Black absorbent layer improves black levels in bright and dark room environments
- Moisture resistant black or white aluminum housing options
- Rises and lowers using "scissor-backed" cross spring risers
- Specially designed for tabletop/bottom placed UST projectors
- Tab-tension design allows for a flat and taut projection surface

Technical Data

Projection Type:	Front projection
Projector Compatibility:	Ultra-short throw projectors ONLY
StarBright CLR®:	0.6 Gain Material
Viewing Angle:	180°
Light Rejection:	Up to 95%
Housing Options:	Black or White
Black Backing:	Yes (non-opaque)
Warranty:	2-Year / 3-Year ENR-G Warranty

Control System

- Includes Radio Frequency (RF) and Infrared remote controls
- Wall controller included for manual on-wall operation; detachable for a clean look
- User-friendly programmable vertical rise position
- Built-in selectable channels allow one RF remote programming
- 12v trigger feature allows synchronization between the screen's UP/DOWN operation and projector's power cycle

Available Screen Materials
