

The **Kestrel Tab-Tension 2 CLR®** is an electric floor-rising projector screen with Ceiling Light Rejecting® technology to combat the washout effect from overhead lighting in bright room environments. The StarBright CLR® material is configured in a tab-tensioned format to ensure a taut, flat, and ripple-free projection surface suitable for ultra-short throw projectors. It is the ideal non-invasive solution for environments where wall or ceiling installations are impractical. Available in either a black or white housing to fit any room décor.

Screen Material

- StarBright CLR® (Ceiling Light Rejecting) material absorbs up to 95% of overhead lighting
- 100x contrast enhancement over standard matte white screens under ambient light
- Multi-layered optical micro-structures filter out ambient light for superior image brightness
- Black absorbent layer improves black levels in bright and dark room environments
- Reflective layer concentrates projected light back to viewer's field of vision and negates light scatter
- Ultra-wide viewing angle allows viewers to see a clear and bright image from any position
- Special lenticular surface provides superb color fidelity, contrast and black/white dynamic range
- Black backing eliminates light penetration to avoid picture degradation
- Available in the following diagonal sizes: 101" and 121" in 16:9 aspect ratio

Design & Operation

- Elegant moisture resistant black or white aluminum housing options to fit any room décor.
- Rises and lowers using "scissor-backed" industry grade cross spring risers
- Specially designed for tabletop/bottom placed ultra-short throw projectors
- Project from within a short distance without shadowing the picture
- Includes Infrared (IR) and Radio Frequency (RF) handheld remote controls
- Wireless 12v trigger included – Synchronizes operation with projector's power cycle
- Up/Stop/Down toggle switch for manual operation
- Plug & Play ready, no hardwired installation required
- 2-Year / 3-Year ENR-G Manufacturer's Warranty by Elite Screens, an ISO9001 manufacturer since 2004
