

Spectrum Tab-Tension 2 CineGrey 3D®

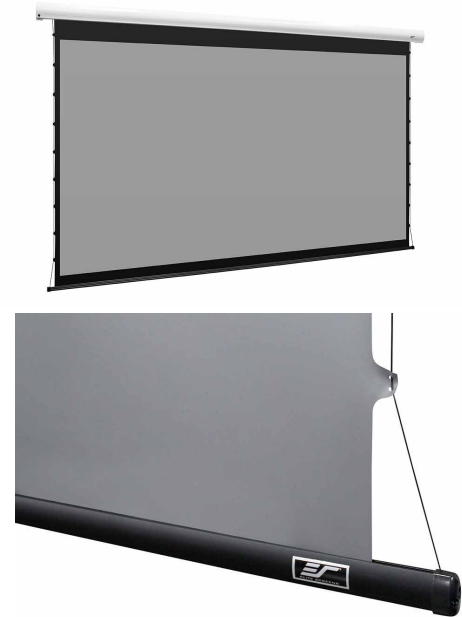

Ambient Light Rejecting Motorized Projection Screen

Compatible with Standard "Long" Throw Projectors ONLY

Product Description

The **Spectrum Tab-Tension 2 CineGrey 3D® Series** is part of Elite Screens CE-Retail line of electric projection screens that uses the CineGrey 3D® angular reflective material. It's a reference quality front projection screen material formulated for environments with minimal control over room lighting. The CineGrey 3D® was designed to enhance picture brightness, offer accurate color fidelity, and improve contrast levels. Typical matte white surfaces wash out the images when ambient light cannot be controlled. The CineGrey 3D® is the best choice for having a projected image with a balanced color temperature and contrast under such conditions.

Models	Diagonal	Aspect Ratio	View Width	View Height	Material	Gain	Case Color	Top Border
ELECTRIC100HT2-HD3	100"	16:9	87 in	49.2 in	CineGrey 3D®	1.2	Black	N/A
