

The **StarBright™ 4** material has a unique optical coating that enhances picture clarity regardless of an ambient light presence. The Angular-Reflective surface is coated with a transparency dry-erase layer for use as a white board while enhancing true color rendition from its highly reflective qualities. **StarBright™ 4** material will enhance image brightness 4x more than the standard matte-white material and is your best dual function for White Board and Front Projection for use in training rooms with ambient light.

Elite Screen series:
WhiteBoardScreen™, Pico Sport

Screen Material

- Unique optical coating supports high uniformity with picture clarity dry-erase board
- Gain:4.0
- View Angle: 50° (25° ± LR)
- Mildew Resistant
- Surface can be cleaned as dry-erase board
- Active 3D, 4K Ultra HD, and HDR Ready

On axis 0° Gain: 4.0
Viewing Cone: 50°
