

Starling 3 Series

Electric Motorized Projection Screen

Product Description

The **Starling 3 Series** is a motorized projection screen engineered for performance, longevity, and visual appeal. It features our MaxWhite® and MaxWhite® Fiberglass (FG) materials, offering a wide viewing angle for consistent image clarity across the room. Standard control options include IR and RF remotes, a wall-mounted control box, and 12V trigger compatibility for seamless synchronization with the projector's power cycle.

Product Design & Features

- MaxWhite® material included for 200" models and above
- 4-side masking borders enhance picture contrast and absorb projector overshoot
- Comes in a moisture resistant aluminum white housing
- Wall/Ceiling installation brackets included and slide horizontally for proper centering (Up to 180" Diagonal models only)
- Ceiling suspended capable using included eyebolts on top of housing (200" Diagonal and bigger models)
