

Tripod Tab-Tension CineGrey 5D®

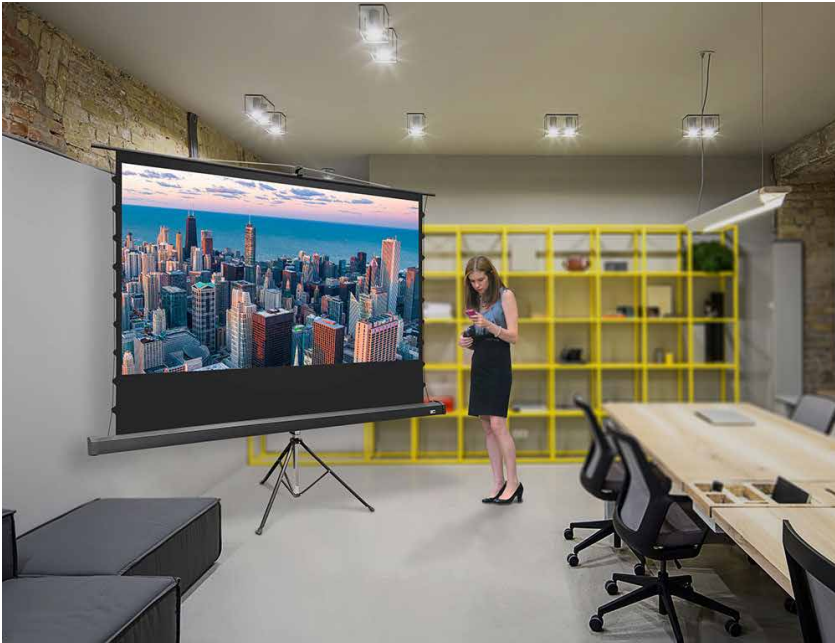

Roll-Up Tripod Ambient Light Rejecting Projection Screen

Compatible with Standard Throw Projectors ONLY

Product Description

The **Tripod Tab-Tension CineGrey 5D® Series** is a tab-tension reinforced “roll-up” projection screen capable of rejecting the washout effects of bright room lighting. The screen features our CineGrey 5D® front projection angular-reflective material. This award-winning Ceiling/Ambient Light rejecting technology does what white materials cannot do by reflecting off-axis light. The Tripod Tab-Tension is perfect for quick setups in bright environments where the room lighting will not wash out the image.

Models	Diagonal	Aspect Ratio	View Width	View Height	Material	Gain	Case Color	Bottom Border

Product Features

- CineGrey 5D® 1.5 Gain Ceiling/Ambient Light Rejecting (CLR®/ALR) front projection material
- Multi-layer matrix uses reflective and absorbent micro-particles that eliminate up to 75% of ambient light
- High-contrast diffusion layers (Enhance black level dynamic range and color saturation)
- Angular reflectivity negates light scatter and is ideal for commercial applications
- ISF Certified for Accurate Color Reproduction – An industry standard for high-fidelity video display systems
- Available in the following diagonal sizes and aspect ratios
 - 103", 124" and 135" in 16:9 aspect ratio
- Compatible with Full HD, 4K/8K Ultra HD and Active 3D
- Compatible with standard “long” throw projectors ONLY
- Black masking borders absorb projector overshoot while enhancing
- Auto-locking mechanism controls variable height adjustment
- Built-in carrying handle for easy transportation
- Simple screen adjustment for various height settings
- Standard carrying bag is included for extra protection when traveling and storage
- GREENGUARD® Gold Certified UL 2818 for safety indoor emissions
- 2-Year / 3-Year ENR-G Manufacturer's Warranty by Elite Screens, an ISO9001 manufacturer since 2004
