

VMAX 3 Series

Electric Motorized Projection Screen

Compatible with Standard Throw Projectors ONLY

Product Description

The **VMAX 3 Series** is an enhanced electric motorized projector screen for commercial and home theater applications. With standard features such as IR & RF remotes, 12v Trigger and a wall box controller. The VMAX 3 series utilizes Elite Screens' GREENGUARD® Certified MaxWhite® and MaxWhite® Fiberglass front projection matte white material which is ideal for large group presentations in a controlled light room environment.

Product Features

- MaxWhite® Fiberglass backed 1.1 Gain matte white front projection material (Models 150"-166")
- MaxWhite® matte white front projection material with 1.1 gain
- Wide viewing angle allows viewers to see a clear, bright, and uniform picture from any angle
- Black backing preserves image brightness for a sharper picture and eliminates light penetration from behind to prevent picture degradation.
- 4-side masking borders enhance picture contrast and absorb projector overshoot
- Compatible with Full HD, Ultra HD (4K/8K) and Active 3D projectors
- Available in diagonal size 150" in 4:3 and 16:9 aspect ratio
- Durable steel case includes endcaps for wall or ceiling mount options
- Plug & Play design with built-in low voltage control system
- Includes handheld Infrared (IR) and Radio Frequency (RF) remote controls, and a wall box controller for manual on-wall operation.
- User-friendly programmable vertical drop position for easy installation
- Wall box controller is detachable for a clean look while maintaining RF & IR functionality
- Built-in selectable channels allow one RF remote programming to control multiple screens and prevent interference
- 12v trigger feature allows the screen's UP/DOWN operation to synchronize with the projector's power cycle
 - Wired 12v trigger capability via wall box controller
 - Wireless 12v trigger capability via RF remote control
- 2-Year / 3-Year ENR-G Manufacturer's Warranty by Elite Screens
