

Yard Master Electric Tension Dual

Outdoor Electric 2-Way Projection Screen

Product Description

The **Yard Master Electric Tension Dual Series** is an electric screen with 2-way projection material that is IP33 rated for wind/rain penetration for outdoor applications. The tab-tension design supports a front/rear projection surface with perfect uniform flatness. This allows you to use either a standard, short throw or UST projectors. The WraithVeil® Dual material provides superb image clarity from in-front or behind and its diverse projector compatibility makes it a must for outdoor home or commercial video applications.

Product Design & Features

- WraithVeil® Dual is a 2-directional front/rear projection material
- Dynamic indoor home theater quality with the durability of an outdoor product
- Front side black masking borders absorb projector overshoot while enhancing visual contrast
- Rust resistant aluminum floating brackets allow flush wall/ceiling installations
- Tab-tension design provides uniform flatness over the entire screen surface
- Floating eyebolt construction enables hanging installations
- Rust-proof metal components are IP33 rated for outdoor use
