TRIPOD STAND

The **Yard Master Sport** by Elite Screens is an ultra-light-weight portable projection screen. Its aluminum construction provides a conveniently sleek and trim solution for on-the-go presentations. The detachable screen material is equipped with hanging loops on a sliding rail so that it will be centered if hung on its tripod stand or onto a wall which is ideal for either indoor or outdoor applications. The tripod component has telescoping hooks that pull out and then fold over to connect with the screen itself. Additional features include a bottom center spike for grounding it to grass or any other soft-soil application. The tripod feet have holes to admit ground stakes for added stability. A soft carrying case stores the entire product for easy transport and storage.

SCREEN MATERIAL

- MaxWhite® B (Matte White) 1.1 gain front projection material is durable for outdoor use
- Wide viewing angle allows viewers to see a clear picture with equal brightness over a full 180° angle.
- Hand-rolled material has lightweight aluminum support bars at the top and bottom of the screen
- Black masking borders absorb projector overshoot while enhancing visual contrast
- Black material backing reduces light penetration for enhanced brightness levels
- Available in diagonal sizes 57"/ 96" in 1:1 (squared) aspect ratio and 110" in 4:3 (NTSC) aspect ratio
