

Yard Master Tab-Tension 2 Wireless

Battery-Operated Outdoor Projection Screen

Product Description

The **Yard Master Tab-Tension 2 Wireless** is a battery-operated outdoor projection screen. It is IP33 rated for dust and water protection against the outdoor elements. The tab-tension design provides uniform tension on all sides for a flat and taut projection surface. Includes a handheld Radio Frequency remote control for long distance control and a wireless 12v trigger that synchronizes its drop/rise operation with the projector's power cycle.

Product Design & Features

- Dynamic indoor home theater quality with outdoor durability
- Two material options available for front projection or Dual front/rear projection
- 4-sided black borders absorb projector overshoot while enhancing visual contrast
- Ideal for backyards, patios, pool decks, and recreation room installations
- Tab-tension design provides a flat projection surface for ripple-free presentations
- Black aluminum housing included with sliding wall/ceiling brackets
- Rust-proof metal components are IP33 rated for outdoor use
