

The Yard Master 2 is a folding-frame outdoor projector screen that uses a light-weight folding aluminum framework. It is ideal for outdoor presentations but sometimes, the event requires a higher screen setting so that everyone present can easily see the big picture. The Yardmaster 2 now has an add-on feature. These high-quality extended legs perfectly match the Yard Master 2's design adding 27 inches of extra height. This provides a significant height advantage allowing your presentation to be seen in large group presentations at a greater distance.

Features

Design and Installation

- Light-weight aluminum square tube construction
- Detachable and foldable T-legs design
- Only compatible with Yard Master 2 and Yard Master 2 Dual models
 - ZOMS2-LEGS (up to 120" models)
 - ZOMS2-L135 (Only for 135" models)
- Simply swap-out existing T-legs and replace with ZOMS2-LEGS
- Assembles in minutes with no tools required
- Increase the Yard Master 2's screen height by 27"
- Ideal for applications that require a higher bottom viewing area

Leg Extension Comparison

Part Number	Leg Length Opened	Leg Length Closed	Leg Width Opened	Leg Width Closed
ZOMS2-LEGS	53.3	53.2	37.2	3.9
ZOMS2-L135	53.3	53.2	37.2	3.9
Standard T-legs	25.9	25.7	37.2	3.9

Unit: inch
