Installation

1. Use the correct bracket according to your screen series to install the screen.

VMAX 2/3 Series (2)

VMAX 2/3 Series 135"-170 (3)

HOME 2 Series (4)

CineTension 2/3 WraithVeil Dual Series (5)

VMAX Tab-Tension Dual Series (6)

2. Attach the **Ceiling Panel** (9) with the **Connector** (7).

3. Insert the **Assembler** (8) into to the groove of the **Ceiling Panel** (9)

4. Attach the **Assembly Plank** (1) to the Ceiling **Panel** (9) and secure with **M4 screws** (14) on both sides as shown below.

Note: Step 5 only applies to a VMAX Tab-Tension Dual Series Installation.

5. Attach the VMAX Tab-Tension Dual **Bracket** (6) to the **Assembler** (8) and secure with the M5 Screw and M5 Nut.

ATTACH THE SCREEN TO THE TRIM KIT

1. Adjust the distance of the **Assembler** (8) to your screen as shown below and lightly secure with the M6 Screw.

Note: Do not fix the M6 nut until attaching the Suspension Bar

2. Adjust the level and secure the **Assembler** (8) with the **M4 screws** (13).

3. Cut the **Suspension Bar** (10) to your required length and install it on the bracket and secure with the **M6 nut** (11).

4. Congratulations, the assembly is finished and your Screen and Universal Ceiling are ready to be installed in the ceiling.

A. Example of **CineTension 2/3 WraithVeil Dual** screen assembled

B. Example of **VMAX Tab-Tension Dual** assembled

5. If your screen is the VMAX84H, VMAX100H, Home120H or Home150V, you can assemble the Universal Ceiling kit without the **Connector** (7).

VMAX84H & VMAX100H

Home120H & Home150V
