

ZFE-RT Installation & Control Instructions

1. Disconnect the 3 Way Control Switch from the Kestrel Stage Screen as shown below.

2. Connect the **Wall Box (F)** to the screen as shown below.

3. After connecting the wall box to the screen, you can operate the screen with the IR, RF remote control or the 3-way wall switch.

RF remote – Does not require line of sight for operation. Just press the UP button to raise the screen and the DOWN button to retract screen.

IR remote – Requires line of sight and the IR “eye” sensor to be connected to the Wall Box’s RJ45 port

3-way wall switch – Manually control the screens DOWN, STOP, and UP operation by connectin the switch to the RJ45 port.
